

Withington Assist are hiring!

JOB OFFER

Are you a friendly, self-motivated, caring person, who enjoys spending time with older people?

We are looking to recruit an Older People's Outreach Worker to visit older people in their homes who are socially isolated with mental and physical health challenges, to reduce loneliness and improve wellbeing.

Withington Assist is a charity based in Withington, South Manchester. Funded by Manchester City Council, we have been running since 1969, working to reduce social isolation amongst older people living in the Withington area, and providing volunteering opportunities for the local community. We have a small staff team of Coordinator, Activities Worker and a cook, and work with over 50 volunteers to run various social groups and services for around 180 older people living locally.

This new role will support older people in their homes by spending time chatting, assisting in small bits of admin and providing social interaction on a weekly/fortnightly basis. Where appropriate, it will support people to attend Assist's/local groups' social activities or visit local cafes/shops. It will also involve assisting the coordinator to set up new partnerships between older people and volunteer befrienders.

The job description, person specification and application form are available at www.withingtonassist.org.uk, from the office (see address below), or by emailing withingtonassist.org.uk.

If you would like any further information about the role or about Assist, do come in and see us – email or phone first to arrange a suitable time.

Completed application forms to be emailed to withingtonassist.org.uk, or posted to:

Withington Assist
439 Wilmslow Road
Withington
Manchester
M20 4AN

Closing date to submit applications is **Wednesday 28th February 2024** at 12pm.
